### COVER PHOTO

1912 - Ship Shape were the original Tingira Boys in our traditional navy uniform with 'Blue collar and Bell Bottom' trousers

“**Special Memories** - From time to time I troll the pages of Face Book social media. I am often delighted see on the screen an old navy photo that I took many decades ago. They were all for the printed page in those days but now they are seeing the light of day via social media.

There is an old saying 'a picture is worth a thousand words' and the photo above certainly has many stories to tell. It is HMAS Brisbane sailing off into the sunset in the Persian Gulf in 1981.

I was three months into North West Indian Ocean deployment on board HMAS Brisbane as the ship's photographer. We were off the coast of Kenya when the Commanding Officer, Captain Jim Dickson, informed me that I was to be picked up in 10 minutes by the US Mail chopper so I would finally get a chance to take some shots of HMAS Brisbane up in these Indian Ocean waters.

The US Chopper arrived and the mail came on board. I went back up the cable into the well of the chopper. We did a few laps of the ship on sunset and I got some magnificent photos, including the easy shot that was going to make a nice cover for our cruise book.

Task completed, I was ready to be lowered back on board Brisbane but the pilot announced that we would be racing back to the mother ship, aircraft carrier USS America, for new duty.

Once we landed on the flight deck I was sent below with two US photo mates to find a hot dog in the main galley. Content with a hotdog and coke, suddenly all hell brakes loose. BOOM! A thunderous explosion on the upper deck shuddered the ship.

"Attention all hands - fire on the upper deck" came the voice down the PA system.

The two US photo mates and I grabbed our camera bags and scrambled for the doorway, making our way to the upper flight deck. There before our eyes was the Sea King chopper I had just flown in on, burnt to a crisp! She had exploded during the refuelling procedure and was being pushed overboard whilst still burning. A small upper deck hazard, no one was hurt, flying continued as normal!

Two days later I was finally lowered back down onto the quarterdeck of HMAS Brisbane from another Sea King chopper. As my feet hit the deck the pipe was loud and clear "Leading Phot Lee, Captain's Cabin, with a bloody good excuse and you better have a great photo"

" Seasons Greetings. December is here. The years just seem to fly as we get older.

As we go to press this week, I am on a sojourn in South East Asia, taking a long overdue holiday with my wife Jackie. Watching the sunsets and sipping cocktails presents an opportunity to think back on the good times and to weigh up where you are at in life. It is also a time to plan activities for the decade or two ahead.

Like most of us Tingira Boys, we are all now in or heading towards our 'Sunset' years. Jackie and I have had a few deep and meaningful discussions on what the road ahead may look like. The important part at this stage in life is to discuss the possible options that lie ahead with your partner and family.

So let's talk about our associations future. We are facing a few hurdles next year that need to be put to our membership. As your leader, I can only gather the information and ideas within our ranks, then it's the committee's job to deliver the action plan.

2024 will be an election year for a new Tingira committee. On page 21 and 22 of this issue of Voicepipe, the Secretary has made the situation loud and clear where we stand. Mark, as one of the founding members of this association, will step down as Secretary after 13 years at the helm. That's a good watch sailor, BZ.

So our first task is to find a replacement for Mark, preferably long before April. Big shoes to fill we all know, this position is the life blood of the Tingira crew.

Mark assures me that as he crosses the gangway there will be a smooth handover of responsibilities as we move a few deck chairs. That said, it is 'all positions vacant' for the April AGM. If you have some time and energy to donate to the Tingira crew, please consider and step forward.

**'Behind every Editor there's a great Proofreader'**

## **VALE - RUTH HARMAN**

Associate Tingira member, Ruth Harman, was that person as the proofreader on the VOICEpipe editorial team for the past eight years.

Ruth recently passed, aged 92, and will be sadly missed by the Tingira editorial team and also her presence at many of the Sydney Tingira services and functions that she always attended.

**Pic above** - Ruth Harman receiving her 2020 'RSL NSW Cumberland Covid Care package' from former Tingira Australia President, Greg Read.

*The next big hurdle will be for the new committee to take on the big task of organising the next national JR Reunion scheduled for November of 2025 in Perth. More details to come once the new committee gets around this item. By July next year we should be able to give some final details of the action plan for JR REUNION 2025.*

*The future of Leeuwin Barracks is a pivotal consideration in this big reunion. The Federal Government is still playing with the Leeuwin restructure and future use. So same old standby routine.*

*Now as the sun sets on my iPad here in Manilla, I must reflect on 2023.*

*The committee has once again worked very well. We finally got our strategic plan together for the next five-year period. The most difficult task this year was to do something with the 60 odds items that we have collected that now form the Tingira Collection. The collection is of items from the CSS and NSS Sobraon, HMAS Tingira and HMAS Cerberus and Leeuwin periods in our history line.*

*This week is a very important part of that task. Committee members are in discussions with executive members of the RAN at HMAS Watson. We would like to keep as many items as possible close to the original Tingira site, being Sydney's eastern suburbs. The Garden Island heritage centre is set to close in early 2024 so HMAS Cerberus and Stirling are options for the committee to spread the items into their existing museum collections.*

*The big move forward will be the following week, Thursday 14 December, the Tingira Tea Party at HMAS Cerberus Recruit School. The Tingira Secretary will present to Vice Admiral Mark Hammond, Chief of Navy, the original HMAS Tingira ships name plate. The Tingira name plate will hang proudly at the RAN Recruit School 'Jordon Club' along with that original print of the Sobraon, framed in the Tingira wood, that was*

*recently donated to the association. All Tingira members are invited to attend this very historic event. See invitation on page 12.*

*Many of our Tingira members now make Anzac Day that one day of the year when they don the suit, the Tingira tie and the Leeuwin beret. The momentum is state-wide and has certainly gained traction for the association.*

*There have been many intake reunions this year and there are several in the wings for the next 12 months. This is a healthy sign for all our shipmates celebrating the Leeuwin days.*

*My highlight of the year was certainly being part of the crowd at Garden Island in July for the commissioning ceremony of USS CANBERRA. I was able to catch up with former shipmates and Tingira members and I received a good dose of 'new medicine' on the status of where naval warfare is at in 2023 with the onboard tour of the USS Canberra.*

*Enjoy your 'cocktails into the sunset' over the coming summer festive period. Seasons Greetings to all. Thanks to our committee members for their continued contributions at 'Team Tingira'. Please consider if you could step forward and be part of that team in 2024.*

*Could I ask all JR's to do a ship mate a favour this Christmas? Phone an old mate from your intake and just have a chat, the best present any ship mate could give and or receive. Cheers.*

## SEAPOWERS CONFERENCE

### TIMELY UPDATE FOR AUSTRALIA ...

“ **Welcome to the 13th Royal Australian Navy Indo-Pacific Sea Power Conference, held in conjunction with the Indo Pacific 2023 International Maritime Exposition.**

*The Indo-Pacific, our region, is rich in resources and for centuries it has been shaped and influenced by the waters that surround and connect us.*

*The world's oceans are global superhighways that facilitate the economic interdependence which now characterises the global economy.*

*Billions of people across the world rely upon the natural resources drawn from or transported on the oceans for their livelihood and for their future. Even more take for granted that unseen in the depths of the oceans lie the data cables which are the arteries and veins pumping and transferring data which animates the modern world.*

*This year's conference theme, "Fleet 2035: Sea Power and the Future of Maritime Warfare", is built from the reality that sea power is a*

*ubiquitous element of Australian national security, and prosperity; yet we live in a maritime region that is being reshaped, and our strategic environment is becoming more challenging. The Maritime domain has once again become the frontline for strategic conversations between nations.*

*In parallel, the Royal Australian Navy is also proud to once again host the Navy Enlisted Leadership Conference 2023, widely known as The Sailors Forum. Focused on deck-plate leadership, this event shines a light on the role of our Sailors in building and fostering high functioning teams to animate our units and energise our Navy.*

*The outstanding speakers from around the world include Senior Government and Defence leadership, industry executives, and academics thought leaders participating are sure to make it a thought provoking rewarding event".*

# HYPERSONICS

## BLAST MODELLING FEATURE INNOVATION AWARD WINNERS ...

**Sydney based company Hypersonix Launch Systems and Victoria's Thornton Tomasetti engineer, Rhys Centin, have been recognised with prestigious awards for outstanding Australian industry innovation at the Indo Pacific 2023 International Maritime Exposition in Sydney.**

Professor Emily Hilder, Head of the Defence Advanced Strategic Capabilities Accelerator, presented the Indo Pacific 2023 Innovation Awards as part of the event at Sydney's International Convention Centre.

Hypersonix won both the National and the SME Innovation Awards, for its world-leading work developing a 3D-printed hypersonic vehicle and hydrogen-powered propulsion system, that have been selected by the United States Pentagon's Defense Innovation Unit for the Hypersonic High-Cadence Airborne Testing program.

The Young Innovator Award was presented to Melbourne-based Thornton Tomasetti engineer, Mr Rhys Centin, for his work on two projects: explosive ordnance blast modelling for the Royal Australian Navy; and shock-testing naval equipment weighing more than one tonne, using Australia's only JASSO shock-testing machine.

The panel of eight judges, led by former Director of the Defence Industry Innovation Centre Tony Quick, agreed that Hypersonix Launch Systems' entry was a worthy winner of both the National and SME awards, usually presented to separate companies. Winners of the SME Innovation Award and Young Innovator Award were presented with a cheque for \$50,000 each.

These monetary Awards, funded by Indo Pacific 2023 organiser AMDA Foundation Limited, are designed to be substantial enough to be life-changing, especially for the winner of the Young Innovator Award.

"Once again our awards are highlighting the ingenuity of Australian individuals and organisations, which are proving themselves the equal of any in the world," said AMDA Foundation CEO Justin Giddings.

"These monetary awards are designed as rewards for their efforts and as a practical financial contribution to further innovation and the development of professional skills."

The Indo Pacific 2023 Innovation Awards recognise and reward Australian individuals and organisations at the forefront of defence innovation in products, services and business processes.

The Awards are open to Australian companies and the Australian divisions of international organisations.

Innovations are judged on their commercial success or market potential, understanding of user needs and originality.

Since the launch of the Innovation Awards program in 2012, Indo Pacific organiser AMDA Foundation has presented SME Innovation and Young Innovator Awards to a value of \$685,000 through its Avalon Australian International Airshow, Indo Pacific and Land Forces events.

This year the AMDA Foundation Board moved to increase the cash prize awards from \$15,000 to \$50,000 to encourage local innovation at a critical time in Australia's industrial and strategic development and to make a significant impact on a company's operations or the professional development of a young innovator.

## Award Winners:

- **National Innovation Award:** Hypersonix Launch Systems (NSW) a designer and manufacturer of both the DART AE hypersonic air vehicle and Spartan hydrogen-powered hypersonic propulsion system; the DART AE and Spartan have been selected ahead of 60 contenders from around the globe by the Pentagon's Defense Innovation Unit for the Hypersonic High-Cadence Airborne Testing (HyCAT) program
- **SME Innovation Award (\$50,000):** Hypersonix Launch Systems (NSW)
- **Young Innovator Award (\$50,000):** Mr. Rhys Centin, Thornton Thomasetti (VIC), for his work on two projects: explosive ordnance blast modelling for the RAN; and shock-testing naval equipment weighing more than one tonne using Australia's only JASSO shock-testing machine

## In addition, three Award contenders won a High Commendation:

- **SME Innovation Award HIGH COMMENDATION:** Advanced Navigation (NSW) for the development of the Hydrus fully autonomous submersible drone, designed for one-person launch and recovery, for undersea surveying, detection, localisation, classification and inspection
- **SME Innovation Award HIGH COMMENDATION:** AMOG (Vic) for developing an innovative, flexible monitoring solution that provides independent diagnostics, validation and oversight on the performance of critical wharf infrastructure
- **Young Innovator Award HIGH COMMENDATION:** Mr. Joshua Cribb of Electro Nautic (WA) for his work as co-founder on designing and testing the electromechanical and flight controls of the Electro Nautic 'WaveFlyer' recreational and defence vessel

## CN PRESENTS HOLTHOUSE SCHOLARSHIP ...

**The RADM Holthouse Award was presented at the Indo Pacific 2023 conference to LEUT Samuel Anforth RAN for excellence in Navy Engineering.**

The award was presented by Rear Admiral Rachel Durbin, CSC, RAN, Head of Navy Engineering and Chief of Navy, Vice Admiral Mark Hammond.

The Memorial Scholarship Award is a joint venture between the Royal Australian Navy and AMDA

Foundation Limited, organiser of Indo Pacific, to provide a \$15,000 scholarship for further training and personal development in the field of engineering.

The scholarship is in memory of Rear Admiral David Holthouse, AO, RAN, who held a distinguished career in the Royal Australian Navy, was passionate about naval engineering and was instrumental in the development of the Indo Pacific International Maritime Exposition.

# INDO PACIFIC 2023

ANOTHER RECORD BREAKER ...

**The numbers were always pointing towards another record-breaking Indo Pacific, and now they confirm it: Indo Pacific 2023 was the largest yet.**

The three-day event recorded a little over 27,000 attendances across the three days, up from 25,000 in 2022. This was in addition to:

- *832 participating exhibitor companies/organisations from 21 nations, across a sold-out exhibition floor 13% larger than our previous record event in 2022*
- *171 defence, industry, government and academic delegations, from 46 nations. This is a 48% increase over 2022*
- *This included 25 International Chiefs of Navy or their counterparts and 21 representatives*
- *More than 90 conferences, symposia and presentations across the three days of the event*

Justin Giddings, CEO of Indo Pacific 2023 organiser AMDA Foundation, said the numbers were impressive in their own right. But the main success of Indo Pacific 2023 was the quality of engagement amongst all who attended.

"The vibe around the halls was excellent and the exposure that Australian industry gained with both the Royal Australian Navy and international delegations was priceless," he said.

Mr Giddings congratulated the Royal Australian Navy on its inaugural Navy Life Expo, which saw school students touring a specialist area showcasing Navy's career opportunities, culture and leadership, training, lifestyle benefits and people, through interactive, youth-focused exhibits and demonstrations.

"I was in the Navy Life Expo several times, and it was very well attended, and obviously a great initiative," Mr. Giddings said.

"Another great highlight was the visit from Acting Prime Minister Richard Marles and his commitment to engaging with industry on the floor."

Mr Giddings also paid his respects to Australian Chief of Navy, Vice Admiral Mark Hammond.

"The Chief of Navy dedicated a great deal of time to talking with and listening to industry at Indo Pacific 2023. This direct engagement is critical to an understanding of the capabilities Navy seeks, and how industry may deliver them. We thank the Chief of Navy for his commitment in this area."

# Feature Navy Exhibition ANZAC MEMORIAL

HYDE PARK SOUTH, SYDNEY

1913 the Royal Australian Navy's brand-new fleet sailed through the Heads and into Sydney Harbour. Since then the RAN has served on all the world's oceans in times of peace and war.

During the Second World War, the RAN reached its maximum strength. Approximately 37,000 men and women wore a RAN uniform. The war inflicted a heavy toll on ships and personnel. Thirty-eight cruisers, destroyers, sloops and smaller vessels were sunk and almost 2,200 sailors died on active service.

Since the end of the Second World War, the RAN's fortunes have fluctuated dramatically between lavish acquisitions and slashed defence budgets.

The RAN has sent ships and service personnel to war in Korea, Vietnam and the Persian Gulf. The service has participated in peacekeeping and humanitarian operations all over the globe, at sea, on remote islands and in tri-service deployments. It has played a vital role in protecting our borders and interrupting the international drug trade.

Today the RAN is a highly technical force of state-of-the-art equipment staffed by skilled and dedicated people serving the white ensign in the best traditions of Francis Drake and Horatio Nelson.

To recognise the generations of Australians who have gone to war on great waters the Anzac Memorial will open a year-long exhibition on the Royal Australian Navy on the anniversary of the Battle of Cape Matapan, 27 March 2023.

## RESEARCH REVEALS LUNG CANCER NAVY VETS ...

**U**niversity of Adelaide and Oxford University study has discovered asbestos exposure led to a higher incidence of asbestos-related lung cancers in British and Australian naval personnel than in other armed forces.

The data sets were collected from 30,085 United Kingdom and Australian personnel who served in the '50s and '60s, a time when asbestos-containing materials were present in British and Australian naval vessels.

Three of the four cohorts had previously been studied by the University of Adelaide and the UK Health Security Agency to identify the effects of radiation exposure from British nuclear testing; however, a raised incidence of mesothelioma, a cancer strongly linked to asbestos exposure, was seen in naval personnel in all cohorts.

The University of Adelaide's Dr Richie Gun and Oxford University's Dr Gerry Kendall were prompted by this finding to examine the dataset for the occurrence of lung cancers, which can also arise from asbestos exposure.

Meanwhile, the fourth cohort was Australian veterans of the Korean War, which had been studied by the Australian Department of Veterans' Affairs and the Australian Institute of Health and Welfare.

Dr Gun said, "We found the lung cancer rate was higher overall in naval personnel than in the other armed services, and, while smoking remains the dominant cause of lung cancer, it is unlikely the excess could be explained by a higher smoking rate in the navy."

The researchers have estimated that the proportion of lung cancers related to onboard asbestos exposure were of the order of 27 per cent in Australian seamen and 12 per cent in British seamen.

"Although actual measurements of airborne asbestos levels were not available, and estimates are difficult, we have concluded that the higher lung cancer rate in sailors was most probably caused by onboard asbestos exposure. This conclusion was strengthened by the occurrence of deaths in sailors from asbestosis, a condition which is non-cancerous but is nevertheless disabling and potentially fatal," Dr Gunn explained.

While there is a ban on imports and strict regulatory control of asbestos-containing materials in Australia, they still pose a risk to workers and some householders. There were 142 cases of asbestosis and 111 asbestosis deaths in 2021–22 reported in the NSW Dust Diseases Register.

Dr Gun explained that the effects of asbestos exposure are likely being underestimated unless lung cancer is considered alongside mesothelioma and asbestosis.

"Although it remains true that smoking causes most lung cancers, other agents such as asbestos can contribute to the incidence of cancer in an exposed population. Moreover, we know from other studies that the combination of smoking and asbestos exposure has an enhanced influence on lung cancer risk; this interactive effect would have contributed to the observed lung cancer excess," he said.

The discovery of a link between asbestos exposure and a higher incidence of lung cancer is a timely reminder of the need for protections against exposure to other harmful airborne dusts.

# TINGIRA MEMORIAL ROSE BAY

COUNCILS  
WELCOME  
COLOURS OF  
SPRING ...

**A**fter many years of gradual improvements to the Tingira Memorial, Rose Bay, 2023 saw her best display for many years when the recent crop of 'Spring Seedlings' were in full bloom on 11 November for the Remembrance Day service.

The recent addition of new seedlings to the flower bed section within the memorial and a water sprinkler system added to the park in late 2022, has also added a much needed constant green grass cover on the park area all year round.

The park is used by 100s of locals every day as they take a short cut to the Rose Bay wharf . The back of the memorial was also treated to a new 100 meters of very welcome cement footpath.

There is always more work to be done on such memorials. The display and information boards of the original Tingira story are 90% faded and need to be revived onto a new modern day materials that can withstand the harbourside weather and the salt air of Rose Bay.

**'Thank you Woolahra Council'** - for your continued support and the dedicated staff who continue to service and upgrade Tingira Memorial Park.

# NAVY PHOTOGRAPHERS

## 75th YEAR RAN ANNIVERSARY ...

**N**avy Photographers, these days known as 'Image Specialists', (IS) have always been one of the smallest branches of the Royal Australian Navy; their hidden secret - pre 1984, 50% of all branch members were RAN Junior Recruits in their ranks.

Recently the branch celebrated their 75<sup>th</sup> anniversary into the navy with a grand reunion at Nowra, NSW, with many of those former Junior Recruits within the group.

The event was organised by two former JRs, Richard Green (ex LCDR) and Steve Dent (ex WOPH), it was a great three day event.

Many renewed friendships were once again made with members travelling far and wide from all states of Australia to be there, most with partners. The highlight at the Saturday evening dinner was to see many of the branch 'god fathers' present.

Along with 12 members of the new generation RAN image specialist photographers in attendance, they were able to witness the presentation of the branch history from the early beginnings from Steve Dent.

In recent years the recruiting of navy photographers was to offer the role to establish recruits within the fleet that had obtained the rank of Leading Seaman in another branch qualification.

Role on 2024 - In the near future it was announced by WOIS Damian Pawlenko, that recruiting of future image specialists onto the RAN will revert back to the RAN recruit school status and take new adult entry members as general entry branch members.

This will new recruiting stage will re-instate the rank of Able Seaman to the branch structure after image specialist recruits complete their basic training at the Sydney TAFE college, conducted by navy IS staff.

## 77<sup>th</sup> INTAKE - CLARKE DIVISION

ADELAIDE REUNION OCTOBER 2023 ...

*Report card from Brendan Jackson*

**T**he call was put out for a JR reunion; for the 77<sup>th</sup> intake from JRTS of HMAS Leeuwin.

**5<sup>th</sup> October** - The new grubs mustered in Adelaide at the Lakes Resort. Many arrived before and started to swarm the bar. The afternoon stretched through the night as many stories stretched beyond believe, the conversations just continued as if we had caught up only weeks ago.

The 'Meet and Greet' took place with all wearing a Hawaiian shirt, or colourful shirts, The WAGS took the window lounges and the guys sat at the high tables, there were tears, cheers and great friends getting together from what had been formed 42 years ago at HMAS LEEUWIN.

The bar filled and the bar emptied, and we were all still there at stumps. The ladies were the noisiest as the cocktails were distributed. The lads a bit more reserved as we were all around 57-58 years.

**6<sup>th</sup> October** - Most decided to head to the local Go Kart track. It was competitive especially the second race, although I think some of the drivers drove ships better.

The Reunion Dinner was held on the deck of the Mosaic Hotel. The guys scrubbed up well and the ladies looked fantastic.

We remembered those of the division which had passed with our 77<sup>th</sup> candle lit. The conversations continued with a couple of short speeches. The bar was open, and the food was great. Another successful night.

The stories and the waries continued back at The Lakes, and yes again, stumps called, and we were all there.

**7<sup>th</sup> October** – Colours was called and there were not too many that missed breakfast, we chattered and had a large caffeine fix. We all scrambled to vehicles and off to lunch at the **Port Adelaide Naval Association**. This is an amazing place, the walls held so much history, we had the Curator take us up stairs behind the scenes to see incredible documents. We talked with the Association and the entertained us with a BBQ lunch.

**Pirate Life Brewery** was the next stop with a tour and some tastings. Great to see a small brewery full of people, the beer just flowed.

The day was ending so back to our comfort zone at The Lakes Bar, again there till stumps.

**8<sup>th</sup> October** – Up again, some jogged around the lake some just made breakfast. Today we made tracks first stop was Mount Lofty Lookout, then off to Hahndorf, the German village in the Adelaide Hills, were we had lunch and wandered the village sampling what it had to offer.

The next stop was **Leconfield Winery**, were we found it easier to buy a bottle than a glass, next was The Goodieson Brewery McLaren Vale, which we relaxed in the beer garden with sample palettes.

We all returned to the Lakes for the final night as most flew home the next morning.

The 77<sup>th</sup> had 76 pass out. We are in contact with 62, and their partners (77<sup>th</sup> WAGS), four who have passed the bar, the widows of our division are invited to all our reunions as we are a family. BZ to all the shipmates! **BJ**

# AUSTRALIAN NATIONAL MARITIME MUSEUM

## CALLING DEFENCE FORCE VOLUNTEERS ...

**The Australian National Maritime Museum is inviting former defence force members to join the volunteer cohort at the museum, in partnership with Founding Partner Commonwealth Superannuation Corporation (CSC).**

The program allows former defence personnel to bring their knowledge and experience to a new arena, and gain experience of the museum and the cultural sector, training, coaching, acknowledgement, and a professional reference as a volunteer. All participants undergo an induction and receive appropriate training or instruction to be able to complete their volunteer duties.

Museum Director and CEO Ms Daryl Karp AM said, 'Our volunteers are integral to the success of the museum. They are the welcoming face to our visitors, our friendly experts. They assist us in keeping our vessels afloat and they provide invaluable knowledge and skills across the organisation. The defence force program will provide a great avenue for many ex-service personnel to continue to serve and participate whilst learning new skills.'

Damian Hill, CEO of CSC said, 'We are proud to be the founding partner for the Museum's defence volunteer program. This initiative further builds on our strong connection to the defence community and this next step in our partnership with the Museum provides us with a practical way to support those in the defence forces who have proudly served our nation.'

Navy veteran Chris Perrin said, 'Being a volunteer at the Australian National Maritime Museum has been a highlight of my transition out of the Navy into civilian life. The camaraderie among the volunteers is just like being in a mess deck. It is a great mix of Navy, Army, Air Force, Merchant Navy and civilian volunteers. There is a volunteering appointment suitable for all defence veterans, wherever they are on their journey. You can have some fun whilst giving back to the community.'

There are many diverse opportunities in the volunteering program, including guiding visitors, or working behind the scenes on museum collections or fleet.

**T**he Tingira Australia Association receives many requests for information on the sailors who trained on board the first Australian Naval Training Ship, HMAS Tingira. Between 1912 and 1927, HMAS Tingira, moored in Sydney's Rose Bay, and was the training base for 15 year old boys with direct entry into the Royal Australian Navy.

Many Tingira descendants are keen to learn of the service of their ancestors and we can now publish a roll of around 3,000 names of those original 'Tingira Boys'.

Over the past decade, former Sea Power Centre Australia staff member, Commander Greg Swinden, has compiled a list of 3,000 Tingira names. After many hundreds of dedicated hours, Greg has also unearthed many Tingira stories that have added to our knowledge of Australian naval history.

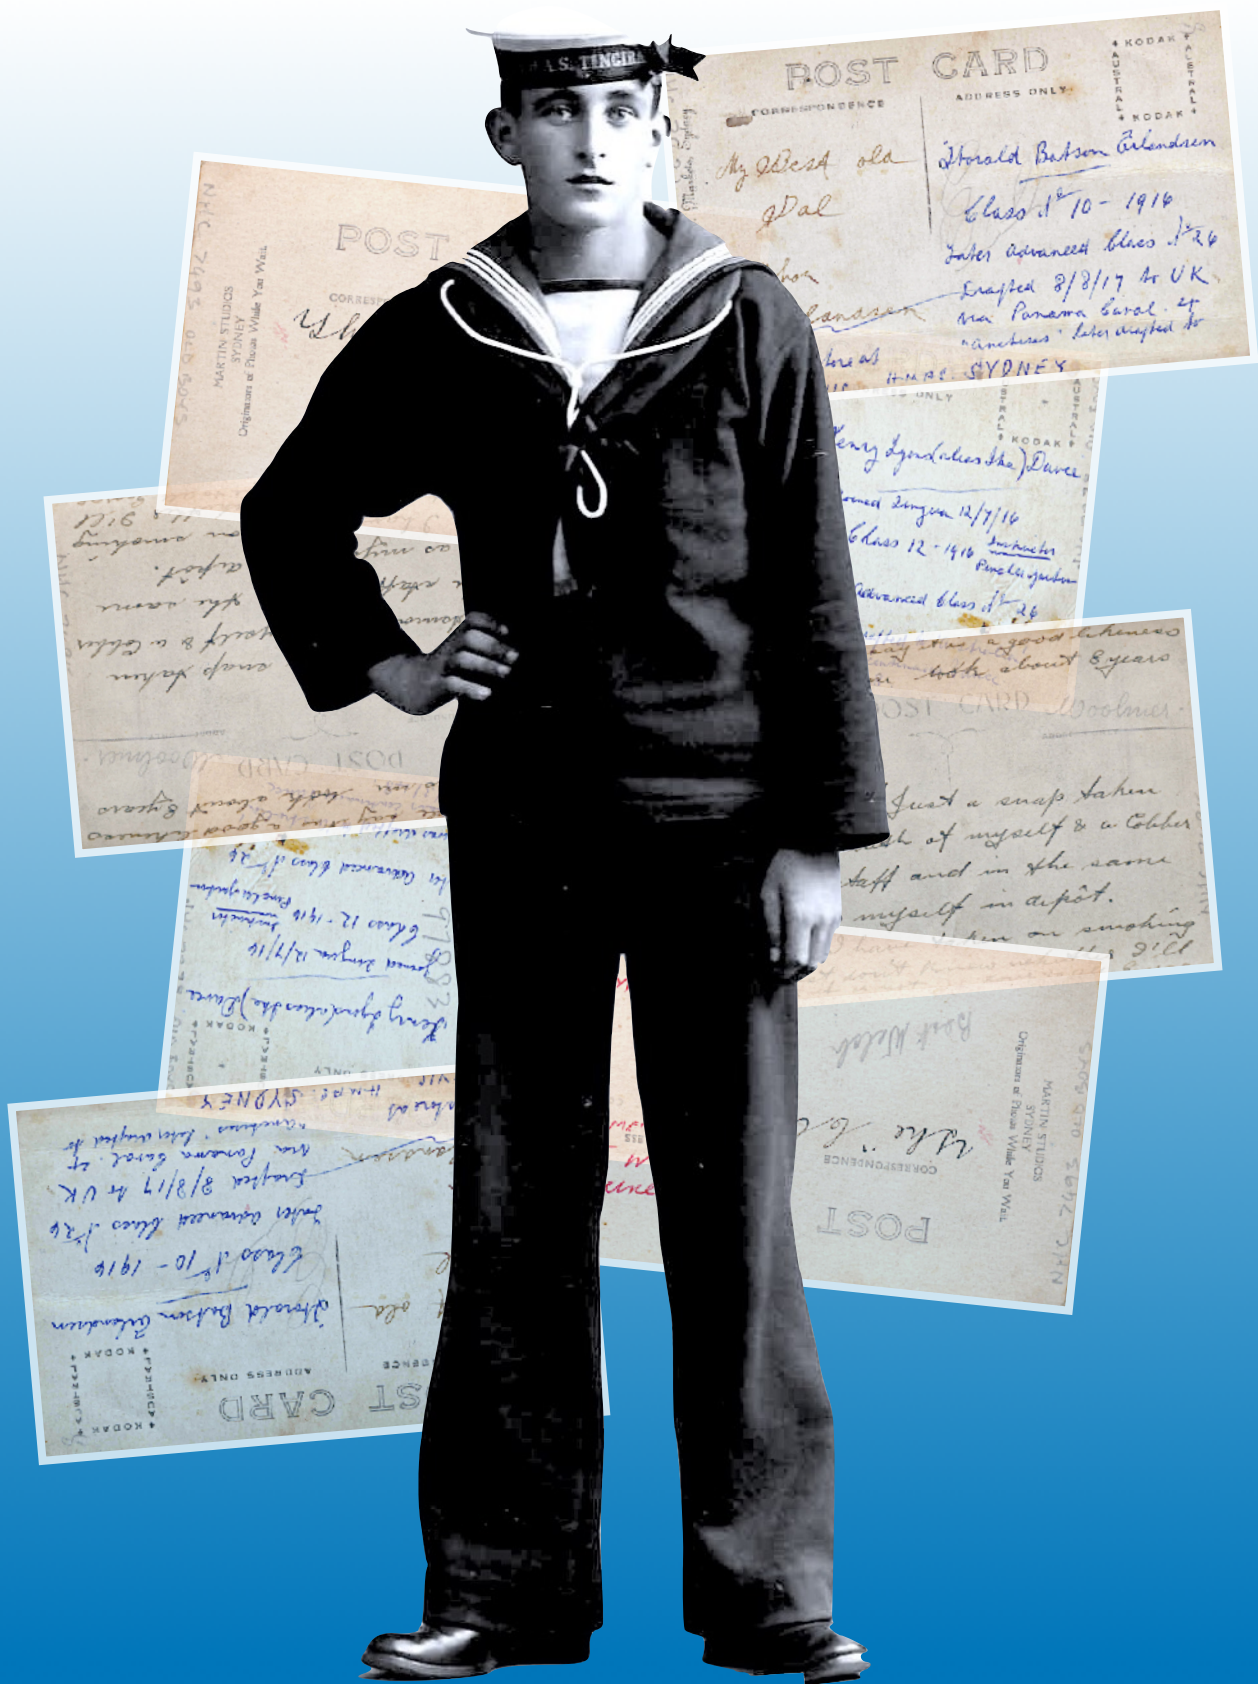

A full detailed A-Z list of Tingira names is now posted on the Tingira website [www.tingira.org.au](http://www.tingira.org.au)

In this issue of Voicepipe we publish the list of all names A to L. The list of names M to Z will be published in the 2024 Autumn issue of Voicepipe.

When will the names of 13,000 second generation boys from the 1960 Junior Recruit Training Scheme be released?

Unfortunately, privacy laws prevent publication any time soon. Perhaps in another 37 years when the centenary is celebrated.

## Australian Navy Cadets – TS Tingira

Australian Navy Cadets (ANC) is a leading provider of youth development experiences for Australian residents aged 12½ to 19 years old, sponsored by the Royal Australian Navy. It aims to build teamwork and leadership skills in young people through exciting and rewarding maritime activities and quality learning opportunities.

Adventure and fun are the key ingredients for activities covering everything nautical from sailing, knots, powerboating, seamanship and marching, to camps, ceremonial parades and events, sailing regattas and interstate trips. We also help you learn skills you will need in the future: leadership, teamwork, self-confidence, independence, resilience, trust and respect.

The life skills that Cadets learn complement their academic achievements and stand them in good stead for rewarding careers.

### How do I join?

Come and visit the unit, based at HMAS Cerberus in Crib Point for a few weeks see if you like it, then complete the application paperwork. Once this is complete and the joining fee is paid we kit you out with your uniform (on loan) and welcome you to TS Tingira.

EMAIL.
